Synopsis

Sixteen lighthouses were built before the Revolution; hundreds more have been built since, creating the world’s most complex system of navigational aid. No other national lighthouse system compares with that of the United States in size and diversity of architecture and engineering.

Customer Reviews

I am a lighthouse lover and this book is the best refence book for lighthouses of California. It leaves very little out and is quick and easy to read. Perfect for the coffe table or bedside table. I recommend this whole line of lighthouse books to everyone.

There are directions and other info for finding and visiting lighthouses. They do not always show all lights for a given area. The photos are all color. I own 3 of these books. There are not many other guide books out there so if you are looking for guide books these are good to have. Since there are so many books in this series I thought I’d help people find them easier. This is the series.~~~~~~~~~~~~~~~~American LighthousesCalifornia LighthousesEastern Great Lakes Lighthouses - I own this oneWestern Great Lakes Lighthouses - I own this oneSoutheastern Lighthouses - I own this oneSouthern LighthousesNew England LighthousesMid Atlantic LighthousesGulf Coast Lighthouses
