So for nurses, what is better than holiday overtime and that nice young pharmaceutical rep with the glazed donuts? War stories! And a whole group of other nurses to share them with. Let's face it, we have to edit our stories around lay people, temper the humor, spare them the deep, down visceral core of our feelings---the fact that have to laugh in the face of disaster, and that we cry in linen closets. But around other nurses? Honey, just sit down a minute and prop up those tired feet and let me tell you a tale.... This is what is so absolutely great about Chicken Soup For the Nurse's Soul: it's the nitty gritty on why we love our profession. And why we continue to love it in the midst of our hardest times, our darkest hours and even now when our country is in crisis with a nationwide nursing shortage. It's a book about dedication and caring. And just who it is on the other side of that thermometer. Every story in this book is aimed right at our hearts---to make us cry, laugh, shake our heads at what we have survived, and to bring us hope and strength. To make us proud of what we do. Kudos to Jack Canfield, Mark Victor Hansen, LeAnn Thieman--a hero in her own right-- and Nancy Mitchell Autio for this gift you have given us: The right to speak out and be proud.

Chicken Soup for the Nurse's Soul is a book long overdue. These stories cannot help but touch the hearts and souls of all who read it, nurses or not. Nurses will recognize their own experiences somewhere in these stories, which affirm the personal nature of nursing and the importance of personal touch involved in the care of others. The authors have done nursing a wonderful service in bringing to light the touching, funny, heartfelt anecdotes shared by those at the bedside. Sally Russell, M.N, R.N Educational Director Academy of Medical Surgical Nurses

I have been a nurse for 21 years and have never read any book that depicts the true value of this wonderful profession. Each story is so easy to relate to. I hope that anyone who is a nurse or knows a nurse reads this book!

This diverse blend of candid and illuminating stories helps to illustrate what nurses really do, and their importance in balancing the healthcare equation. The heart and soul of nursing involves far more than the fictional portrayals depicted on television or in the movies. "Chicken Soup for the Nurse's Soul" comes at a time when this dwindling number of overworked, overstressed and underpaid "angels of mercy" everywhere struggle to practice their art against all odds. I highly recommend regular portions of this morale booster. Laura Lagana (...)

Every nurse can relate to the emotions portrayed in this book. The short story format is perfect for the busy nurse to read. The next time you want to remember that special nurse in your life or the one who helped you through a crisis, or if you are a nurse yourself, read this book! It's my second favorite inspirational book -- my first being "Open Your Mind, Open Your Life: A Book of Wisdom" by Taro Gold. Giving these kind of inspirational gift books assures that your present lasts longer than candy and flowers and will boost the readers' self esteem! Every nurse I have known who has read these books has loved them!

Chicken Soup for the Nurses Soul Jack Canfield, Mark Victor Hansen, Nancy Mitchell Autio- R.N, LeAnn Thieman Chicken Soup for the Nurses Soul there were a lot of different stories told by actual nurses. There was all kind of stories. Nurses expressing their feelings and telling jokes about some of the finest experiences they have been through. Some of the writers were giving advice for those who read the book or want to become a nurse. There were chapters on love, comfort a lot of Inspirational talk. This book inspired me because I felt that these people were being honest. It

sounds so real because I work in a hospital and there is so much affection that is needed. Those who want to become a nurse should really read this book. The details that are given to the readers are excellent. There is some emotional advice and stories.

Words of encouragement for us! After that difficult shift at work, when the patient load was heavy and the 'moon was full', kick off your shoes, brew a cup of tea and relax in your favorite chair with some inspiring stories that remind us we are not only a blessing- - we are blessed!Joan Edwards, R.N.C, M.N., C.N.
