## Customer Reviews

It is just what I needed for my classes. It has some highlights but it was just what he said it was. As long as I can do my homework I'm satisfied

I purchased this textbook for class. It is well written and informative, goes into good detail on the subject without becoming boring.

Awesome. Quick, exactly as described, couldn't be happier. thanks very much

Great book for this class. Very informative

As described, fast shipping.

For a text book, its ok.

Very helpful

I choose these cases for my grandchildren's Leap Pad Ultra's. These cases arrived sooner than expected, and I was surprised of how durable they were. The kids like them because they look like my laptop bag.
