Customer Reviews

I wasn't blown away by this book but I think it is an easy book to understand. It doesn't help that my professor barely uses it because he thinks it is missing a lot of important things. I also randomly noticed that my book goes from page 98 to page 107. I only realized this because I was looking a word up in the index and it says it is on page 104.....apparently I don't have a page 104. It didn't seem like anything was missing because the chapter questions were there and the start of the next chapter was there too but I still couldn't find the term I was looking for. I have no idea if it was printed wrong or it is missing a chapter or what. It still is a very nice book but it would be nice if it was checked for errors before it shipped. This is a really great deal compared to renting this book at

the book store on campus. was definitely the cheapest by far!

Just as expected

Only bought the book for school. Stuff is so boring
