Now I know no one likes to think about death and itâ™s not like Iâ™m an old man or anything. Iâ™m only in my early 30s. However, Iâ™m not the type of guy that likes to leave things unfinished, or until the last minute and recently all the talk about healthcare and life insurance floating around all over the news. Also got me thinking about my last will and testament now as I say I donâ™t plan on actually needing one anytime soon. However, I view a last will and testament as though it is just as important as life and health insurance because honestly you never know when your time is up. And honestly, itâ™s a pretty important subject as funerals cost thousands of dollars as well as medical expenses, etc. and because of this I started looking into how to put together a last will and testament it would be practical for my current lifestyle and age, but could be updated as necessary to reflect the growth of the family or other responsibilities. Wanting to know more about the process of creating a last will and testament. I went looking for some basic entry-level information and came across this book while searching â™s website (itâ™s my favorite online bookstore) and Iâ™m glad I did this little 29 page volume contained everything I wanted to know about the proper way to create a binding last will and testament. This book covers everything from the fundamentals of understanding how a will works and your legal rights and responsibilities of a last will and testament, as well as other information such as how to keep the cost low (as attorneys are generally required to create a legally recognized last will and testament) as well as things such as keeping your will, up to date and how to create a living will.
