Career Choice And Development

Synopsis

The fourth edition of Career Choice and Development brings together the most current ideas of the recognized authorities in the field of career development. This classic best-seller has been thoroughly revised and expanded to include the most influential theories of career choice and development, and it contains up-to-date information regarding the application of these theories to counseling practice. This edition contains a wide range of career development theories that explore how people develop certain traits, personalities, self-precepts, and how these developments influence career decision making. This information will challenge teachers, researchers, and those involved in fostering career development to reexamine their assumptions and practices.

Customer Reviews

Brown presents a very readable and thorough synopsis of various career development theories. A very useful tool for instructors of career development classes including undergraduate and graduate levels.

GOOD BUY.
