Acupuncture & IVF: Increase IVF Success By 40-60%

Synopsis

Increase your success rate with in vitro fertilization (IVF) by as much as 60% The information in this book can increase your success rate with in vitro fertilization (IVF) and other assisted reproductive technologies (ART) by as much as 60%. Research has shown that acupuncture alone can increase the success rate of IVF by 35%. By also adding Chinese herbal medicine, it is Dr. Lifang Liangs experience that you can almost double that increase. In this book, Dr. Liang describes her extremely successful step-by-step protocols for combining acupuncture and Chinese herbal medicine with IVF. Whether you are a Western MD specializing in infertility, a Chinese medical practitioner, or a couple experiencing difficulties in conceiving, this book is sure to give you new hope and a new approach to dealing with this all too common and difficult condition. Text includes: "Step-by-step clinical instructions for using Dr. Liangs protocol "Both acupuncture and herbal medicine treatments "Numerous case histories

Customer Reviews

I gave this gift to a friend who is an acupuncturist. He really loved it. He uses it as a reference when treating patients. I would not buy it for a woman wanting to try acupuncture for fertility - too clinical.

This book has some excellent herbal formulas and acupuncture protocols. I've found Dr. Liang's protocols particularly helpful in blood stasis and qi stagnation cases.

This book is a compilation of case studies. It is a technical read for a patient of acupuncture going through IVF. There is a ton of valuable information in this book, it's just very hard to get through it if you aren't trained to decipher all the lingo. For a doc, I'm sure it's an easy read!

Easy to read, laid out very clearly, and organized. Great book to own and Dr. Liang explains gynecology from Western and Eastern medical perspectives and gives great examples of cross comparisons.

This book has given me great insight as to how to deal with IVF patients and give me more confidence in working with patients who are coming to me for fertility treatments.

This book came on time and was of good quality. Also, if you are an acupuncturist, I highly recommend this book for fertility and acupuncture formulas. An excellent book.

this book really enlightened me to a lot of things i did not know in regards to acupuncture and IVF

This is a must for acupuncturists practicing in fertility. However, there is very little information in the book. Still it is a nice addition to a more complete library, by a woman with modern USA hospital experience.
