## Customer Reviews

This is definitely the best creeper diary I have read so far. I buy books from "Diary" because I know that this author provides consistent, quality work. I know that love, care, and time goes into each one of these. Not a single book I have read from this author has been neglected or rushed. I know that I can feel proud when I buy this for my nephew because I am not the only one who can tell a difference in the quality between the majority of books out there and books from this author. My nephew's face lights up every time I tell him this author has released a new book. To me that is worth much more than the meager \$2.99 I shelled out for this book, it is priceless.

One of the best creeper diaries i've ever read before . I mean whos heard of a creeper who can build and explode a whole biome . No One right . I would highly rate this book 5 stars . O yeah Wesley is such a jerk . Thank You for readin this

I am willing to purchase more Diary books after this one. Also,who ever writes these books is a genius!
