Nonmalignant Hematology: Expert Clinical Review: Questions And Answers
This book, in Q&A format, addresses a wide range of clinically relevant topics and issues in Nonmalignant Hematology, or “Benign Hematology,” with a view to offering a robust, engaging tool that will assist every hematologist and oncologist (pediatric and adult equally) in making decisions during day-to-day practice. The entire spectrum of the specialty is covered in more than 60 exceptional chapters written by acknowledged authorities in the field. The content is organized into well-designed broad sections on red cell disorders, platelet and coagulation disorders, coagulopathy in systemic diseases, thromboembolic disease and its management (including surgical), immune system and related disorders, hemostasis and thrombosis during pregnancy and in the newborn and elderly, and Transfusion Medicine. A key aspect of the book is the opportunity it affords expert physicians to express well-reasoned opinions regarding complex issues in Nonmalignant Hematology. Readers will find that it provides a practical and immediately applicable compendium of answers to often complex and vexing questions. It will appeal to residents, fellows, house officers and more experienced practitioners around the globe.
