Customer Reviews

The book itself is very good, I was just surprised to find out that pages are missing. Page ended 408 then the next page start with page 700 so pages 410-690 are missing that's a lot of missing pages

This was an awesome class but I did not have to use the book at all.

Arrived on time and was in decent quality for class.

Bought for daughter's college class. It was fine.

This is a great book, very concise.
