The Pathfinder: How To Choose Or Change Your Career For A Lifetime Of Satisfaction And Success (Touchstone Books (Paperback))

Synopsis

This classic bestseller is THE career-design bible for college graduates and midlife career-changers alike. Now fully revised and updated for the twenty-first century! Based on breakthrough techniques developed by Rockport Institute, an innovative and award-winning career-counseling network that has changed the lives of hundreds of thousands of people, The Pathfinder offers invaluable advice and more than 100 self-tests and diagnostic tools that will help you choose an entirely new career—or view a current job from a new, more positive perspective. You™ll learn: Whether you™re a seasoned professional in search of a career change or a beginner just entering the working world, you want to make the right choices from the beginning. No matter where you are in your journey, if you want work to be more of a dance than a drag, The Pathfinder will expertly coach you through the process of designing a career you will love.

Customer Reviews

The Pathfinder is light-years ahead; Nick Lore has literally reinvented career counseling. If you want more than a job, this book is loaded with tools that really work . . . As a career columnist and coach I've spent the last decade researching to find innovative career development tools. Most of what has been around for the last 25 years is job finding focused. If you need help with choosing your career direction, traditional tools will fail you miserably. All my mid-career clients who've been through the high school and college systems say, "There really isn't much "life direction" counseling going on!"

The more recent career books on the shelf have made attempts to fill this gap, but most of them make only small improvements to traditional tools that never really worked. Nick Lore has upped the ante . . . raising the bar of the career counseling profession to a whole new level. The Pathfinder is brilliant. Nick Lore's insights into human nature had me bursting into laughter, laughing at myself, and completely rethinking what a "career" is. Much like how transformational movies stick with you; Lore tugs on your heart and soul; you'll never see your career in the same way. Despite your fears, he inspires you and gives you powerful tools to do something with your life. Nick Lore is a witty storyteller and social scientist who has invented a way to get you moving in the right direction. Intuitively, you get that the depth of Lore's tools and inquiries can only come from someone who has committed himself to a life's work. Rockport Institute's approach to measuring innate talent and aptitudes is pure genius. Lore exudes a genuine-ness rarely seen, and you can tell he has lived and breathed this stuff.
