# Robert Adams: Buildings In Colorado 1964-1980 & Rudolf Schwarz: Architecture And Photography

## Synopsis

This two-volume publication examines the early work of photographer Robert Adams (born 1937) in relation to the German architect Rudolf Schwarz (1897–1961). In a previously unpublished text, Adams reveals a close connection between his photography and the European architect. In the 1960s, on his only European tour, Adams focused specifically on Rudolf Schwarz's churches in Aachen and Cologne, which left a lasting mark on Adams and inspired his decision to become a photographer and his early choice of subject, the Denver suburbs. As Adams wrote, Schwarz's buildings "helped suggest to me, when I returned to America, that not just churches, but whole urban and suburban landscapes might be revealed as sacred if we brought to them a measure of the same passionate regard that Schwarz had brought to his specifically religious commissions."

## Customer Reviews

Light, space, and silence--which Robert Adams describes as sacraments--can be found in some churches and some landscapes. Beautifully printed, thought provoking, and an important addition to the work of Robert Adams.

Great!
