Customer Reviews

Informative book for beginners and I applaud the writer for sharing his experiences on and eBay with readers to learn from his mistake. Good read.

contains valuable information. the text is pretty comprehensible. it has all the insights about buying from China.overall a great read

Like the first hand experience and tricks shared by the author. It sure worth of its small price is is for.

If you want to know more about importing from China using Ali Baba and selling on Ebay (or), get a book on Ali Baba and a book on selling on Ebay (or). There's nothing in this book that you can really use. I'm just glad to have borrowed it from the Kindle Library, rather than spending the \$2.99, or whatever absurd amount the author was asking for it.
