Fetal Growth And The Placenta-From Implantation To Delivery: From Implantation To Delivery (Trophoblast Research)
This volume contains a collection of papers given at the fourth meeting of the European Placental Group Joint Meeting with the Rochester Trophoblast Conference, in September 1991, at Gwatt, Switzerland. The participants came from academic institutions associated with 19 disciplines in basic science, clinical medicine, veterinary medicine and others. They presented and discussed research related to numerous aspects of morphology and function in the trophoblast and the placenta. Altogether, 230 scientists arrived from 27 countries to provide a forum of multidisciplinary scientific interaction. The featured contributions were prepared upon invitation and underwent peer-review. Preference was given to manuscripts treating topics connected with the main title of the conference: placental permeability and transport; placental metabolism; foetal-placental circulation; implantation, differentiation and invasion.

Synopsis

Book Information

Series: Trophoblast Research
Hardcover: 384 pages
Publisher: Univ of Rochester Pr (July 1993)
Language: English
ISBN-10: 1878822268
Product Dimensions: 1 x 6.8 x 10.2 inches
Shipping Weight: 1.8 pounds
