Customer Reviews

At the end of this engaging book, I felt sad, it would have been exemplary if the pages of beautiful poetry went on and on. The Rumi quotes are lovely and thought-provoking being presented along with photographs which, in themselves, sometimes made me wonder why such-or-such photograph was chosen to go along with the writing. Still very enjoyable . Read it and see for yourself.

Spectacular choice of highly inspiring phrases combined with breath taking photography.It is my first encounter with Rumi the poet, and I was blown away by how much he can say, with so little words.Farnoosh Brock has compiled an excellent choice of his work. Well done!

Farnoosh has brought the poetry of Rumi to life with her beautiful photography in this inspirational and encouraging book. I was not familiar with Rumi's work before discovering this gem, but am definitely interested in reading more. The photography that she selected brings new light to Rumi's words, and the selections she chose will inspire you to live life to the fullest and seek more. This book will be one of your favorites!

Lovely photo book with some wonderful, inspiring quotes. This will work best on Kindle Fire or other tablets, rather than an e-ink Kindle. I had never heard of Rumi, so this was also educational in a sense.

Absolutely stunning work of art. I have enjoyed reading this book and gazing at the pictures several times now. The pictures revealed the words and the words reveal the photographs. The whole book spoke to me and I am giving it as a birthday gift to several friends. Bound joy.

This is beautiful and inspiring collection of Rumi's work combined with breathtaking photography by Farnoosh Brock. It is obviously a labor of love by the author which is meant to be treasured and enjoyed often.

This is my first Rumi purchase, which I made because the author was native to the middle east, so I figured the translations would be more authentic and rich. Then I found out she essentially used the same guy that everybody else uses for her quotes. That was a little disappointing.Overall: This is a

quick read and it might be better if it's not on a kindle app. I prefer quotes with pictures that don't have people in them because the person becomes the focus of the picture instead of the quote - especially when it's a random yoga pose. Content: I liked the quotes. I'm still looking for more authentic translations of Rumi before I rave about his wisdom.

This is a wonderful book of colorful photographs with Rumi's wise sayings -- just as true today as they were hundreds of years ago. I only wish I could purchase this as a book for gifts. It is on my iPad and I love it. It is reasonably priced, and if you purchase it you will do as I do (I know you will) and refer to it again and again. It is very inspirational.
