Customer Reviews

This is just two people reading the interviews - lacks the voice, inflections, and emphasis of the legends being interviewed. Due to this reason, it is very difficult to know when the questions ends and the responses begins, due to the canned readings of the person doing these CDs. I owned the interviews from the CDs of Ed Seykota/Larry Hite, Richard Dennis, and Paul Tudor Jones - they are all read the same way and many times, you don't know whom said what when they go from the interviewer's questions to the legends responses, as the voices sound similar due to lack of emphasis and vocal inflections of the original legends.

This interview has strong merit and advice to the new trader. It is worth listening to over and over again. It has practical advice and teachable strategies a new trader can adopt into their beginning trading style.

This is just rehash of one section of the book. Get Market Wizards in print form and you will be happier.
