## Customer Reviews

Have you ever wanted a step-by-step guide on how to finance your independent film without being given a step-by-step guide on how to finance your independent film? If so, this is your book. A bloated, 200 pages too long, set of confusing instructions that has many glaring omissions, but still manages to tell you how to go about financing and building a business plan without actually telling you how to finance and build a business plan. A masterpiece of the round-a-bout. With great hollow sayings like, "Be persistent," "Every investor is different," and "Seeking reality," all multiple times, in different chapters. Ugh. Most of this book can be learned from reading a simple article on how a small film made it big in the Hollywood Reporter, then analyzing from where they started. But instead, this book contains ambiguous chapter after chapter. Promising a step by step and simple approach to creating your business plan later in the book, and then never delivering on it. It's also a

reference book to information never given in each chapter. Example; References are made to information never emphasized in previous or upcoming chapters in the current chapter you are reading -- [As discussed in Chapter 6] -- When all that was discussed in Chapter 6 is how the chapter you're currently reading has the answers. It doesn't. It's as screwy as the head-spinners at a Hollywood party and in its Seventh Edition. There are no insights. There are a few bits here and there on what you need to do, which basically boils down to common sense: Research and use the internet. Find an example business plan out there, then adapt it to your project. Grab a phone book and call doctors, rich people, or throw a party.
