Wow a book I should of read years ago, this books covers everything you need to know about auto insurance. It goes through the loopholes that insurance companies use to get out of paying and then goes on to give you advice on how to get the best insurance. Something everybody with a car needs to read. I'm now off to save some cash.Five stars and a bargain at the price.

I have two sons that are getting ready to drive and I am going to sit them down and read this to

them! This is from A to Z everything you need to know about car insurance. I was amazed that there was still a lot I didn't know after having had car insurance for many years. After learning that I am under-insured .... then I learned how to save money on my insurance :) Useful information on buying cars and what happens if you do get into an accident. Money saving tips for seniors, and helpful tips for young drivers. This short little book explained everything I needed to know in a way that made it easy and fun to learn. I would recommend this to anyone who owns a car.
